Advice to Mothers

Have you had baby's photograph taken? It's an art to take baby's photograph as it should be taken. To catch his roguish little smile, his pretty little dimple. Such photographs become prized remembrances of babyhood's days in years to come. We have had years of experience in photographing children. They always look their best when we snap them. No troublesome posing. Snap them in a jiffy.

If you have any plumbing work, or if you have burned a whole lot of coal, and have not been able to keep comfortable let us talk it over. We have helped others, perhaps it can help you.

Sanitary Plumbing

A peep into an up to date bathroom is only less refreshing than the bath itself. During the summer you will be more likely to bathe for bodily comfort. I will show you samples and plans of the porcelain and other tubs and give you estimates for the work at putting them in in the best manner from a sanitary standpoint—and guarantee the entire job.

STATE BEEKEEPERS' FEEL MAY

Fifty Members Entertained by President Allen Latham—
Interesting Talks on Care of Bees—Latham Apiary Inspected—Professor Gates of Amherst College a Speaker.

The annual field day of the Connecticut Beekeepers' association was held on Tuesday at the home of the president, Allen Latham, on the Scotland road, and the fifty members present spent a most enjoyable day.

In the forenoon Mr. Latham's colonies were visited. The room in which he stores his honey was shown and explained. The walls of the room are covered with two thicknesses of heavy paper, making it impervious to dampness. The room is an airy, commodious 2,500 pounds of comb honey as well as quantities of canned honey and wax. A fumigating room in the basement was also shown. The honey is fumigated to kill the wax moths. Mr. Latham has about 70 colonies of bees, and as a result of his long experience his methods of caring for the bees and for the honey are most successful. His equipment includes many original and efficient features.

At noon a basket lunch was enjoyed, and ice cream and fruit were served. A huge bunch of bananas hung from a tree for the convenience of those who desired them.

In the afternoon the company visited a large sun-dry patch near the house where the bees were being busy at work. The party also went to the reservoir, a short distance from Mr. Latham's home.

An interesting talk on the care of bees was given by Berton N. Gates, an instructor at Amherst college. T. S. Scranton, Madison, spoke on the work of the state association and finished with a few incidents of the cure of rheumatism by bee stings. President Latham spoke interestingly on the

NORWICH MORTALITY WAS BELOW STATE AVERAGE.

Deaths in June Here Numbered 31—Six in Public Institutions.

The June report of Secretary Townsend of the state board of health shows that for the month Norwich had a death rate somewhat below the state average and few contagious diseases.
